3116 and 3126 Truck Engines Valve Lash Valve lash is measured between the rocker arm and the valve. All lash measurements and adjustments must be made with the engine stopped, and with the valves FULLY CLOSED.

3116 and 3126 Truck Engines Valve Lash | Caterpillar ...

One of the most commonly required specialty tools for Cat 3116 injectors is the synchronization tool. Cat 3116 injectors must be synchronized to work together whenever an injector is installed or replaced. The synchronization tool is basically a premeasured block that is installed between the number one cylinder injector and the engine block, at which point the second part of the synchronization tool, a dial caliper, is used.
