The Guide to Clinical Preventive Services includes U.S. Preventive Services Task Force (USPSTF) recommendations on screening, counseling, and preventive medication topics and includes clinical recommendations for each topic. This new pocket guide provides family physicians, internists, pediatricians, nurses, nurse practitioners, physician assistants, and other clinicians with an authoritative source for making decisions about preventive services.

Guide to Clinical Preventive Services, 2014 | Agency for ...

The Guide to Clinical Preventive Services contains the U.S. Preventive Services Task Force (USPSTF) recommendations on the use of screening, counseling, and other preventive services that are typically delivered in primary care settings. The USPSTF, an independent panel of experts supported by the Agency for Healthcare Research and Quality (AHRQ), makes recommendations based on systematic reviews of the evidence related to the benefits and potential harms of clinical preventive services.

Guide to Clinical Preventive Services | The Community Guide

Clinical preventive services offer tremendous opportunity to save years of life and to help people live better during those years. Moreover, science-based prevention can save money—and provide high-quality care—by helping people avoid unnecessary tests and procedures. Evidence-based preventive services are effective in reducing death, disability, and disease, including:
