The Stromberg CD carburettor, like the SU (See Adjusting an SU carburettor), is a constant-depression carburettor, hence the CD. The two work in much the same way, but the Stromberg differs in having an air valve - commonly called the piston - surrounded by a rubber diaphragm in the dashpot. The size and type of a Stromberg are given by numbers and letters.

SU & Zenith-Stromberg Fuel and Carburetor Symptoms & Diagnosis Before adjusting the carburetors, verify that the following items have been checked for proper operation. Many suspected carburetion issues are actually caused by faults within the ignition system, making this the first place to look before making any carburetor adjustments.

[SU & Zenith-Stromberg Fuel and Carburetor Symptoms & Diagnosis](#)

Stromberg. Stromberg started selling carburetors in 1909. The carburetor was originally known as the "Goldberg", the name of the chief engineer, but changed to Stromberg very quickly. Strombergs with the Goldberg cover are quite scarce. Stromberg sold carburetors through the 1974 model year.
